Subject: JT/Article in President Magazine

Matt:

We'll have more complete information next week, but I wanted to advise you of the following in case this comes your way.

We learned (through Roger Whidden who had received a note from G. Fowler) of an article in a Japanese business magazine called President which carried an extensive interview with JT in the Nov. issue. It includes extensive comments from Mr. Honda, Director of Sales Planning; Mr. Takeda, Director of Marketing; and Mr. Mizuno, President.

There are a number of statements both in relation to smoking and health and about PM/U.S. cigarette companies which are of concern. The article is about 7 pages and has been sent out for translation.

I wanted to advise you of this in case you were contacted by anyone in legal.

I'll keep you posted.

Jan
